

# PROTECTOSEAL®

The highest quality and most comprehensive line of safety products for storing, handling, dispensing and disposal of flammable liquids.

# WASTE COLLECTION & DISPOSAL EQUIPMENT

## ■ OILY WASTE CANS

Provide for safe, temporary disposal of flammable-soaked rags or wiping materials. Guard against spontaneous combustion. Oily waste cans open to a full 60° with slight pressure on foot treadle. Cover closes automatically when foot is removed. Feature ventilating air holes in raised bottom. Available in ZIACOTE™ or 316 stainless steel construction.

Capacity	H	W x D	Test Lab Listing	Cat. No.
6 gal.	14¾"	11¼" sq.	FM/UL	1401

10 gal.	17¾"	13" Sq.	FM/UL	1403
14 gal.	19"	15" Sq.	FM/UL	1404

No. 1403

## ■ FIRE CHECK WASTE RECEPTACLES

Nos. 3705AH & 3705R

Nos. 3755AH & 3755R

Special design restricts oxygen supply to smother flames before they can spread. Attractive, one-piece brushed aluminum Fire Check Head fits standard rolled-top drums. Maintains a neat and clean appearance wherever combustible waste accumulates in offices, plants, hospitals, schools, etc..

Size	Cover I.D.	Opening I.D.	Test Lab		
			Listing	Head	Receptacle
Fits 5-gal. Pails.	12"	4¾"	FM	3705AH	3705R <sup>1</sup>
Fits 12 or 15-gal Drum	14¾"	5¾"	FM	3712AH	3712R <sup>1</sup>
Fits 30-gal. Drum	19¼"	7"	FM	3730AH	3730R <sup>1</sup>
Fits 55-gal. Drum.	23½"	7"	FM	3755AH	3755R <sup>1</sup>

<sup>1</sup> Outsourced product distributed by Protectoseal. Exempt from ISO system review.

## ■ SELF-CLOSING DRUM COVERS

Convert standard size pails and drums into fire-safe receptacles for the accumulation of combustible waste. Renewable fusible link assembly melts automatically dropping cover to snuff out fire within container. The ZIACOTE™ steel cover easily attaches by a single bolt and steel strap, and detaches for emptying without unfastening strap. Cover may be closed manually.

## WASTE LIQUID DRUM FUNNELS

No. 5502A

No. 5510V

Large 10½" diameter, ZIACOTE™ constructed funnels permit safe, rapid filling of 55-gallon drums with flammable liquid waste. Equipped with a fusible-link actuated hinged cover. The environmentally safe, Self-Closing Drum Funnel, Model No. 5510V, handles both flammable and non-flammable liquid waste including heavy, viscous materials. A positive self-closing check valve minimizes atmospheric vapor emissions and also prevents spillage if the drum was accidentally tipped over.

Description	Arrester Type	Test Lab Listing	Cat. No.
Funnel w/ Check Valve	8" Perforated Metal	-	5510VS
Funnel w/ Check Valve	32" Brass Tube	FM	5510V
Funnel w/o Check Valve	8" Perforated Metal	-	5502A
Funnel w/o Check Valve	32" Brass Tube	FM	5510

## MOBILE SAFETY TRANSFER CARTS

Ideally suited for refilling safety cans, wash tanks, bench cans, etc. at on-the-job locations or for the disposal of waste liquids. Features may include a UL/FM approved transfer pump with a 6' hose, safety funnel, 2" fill fitting, ¾" drain plug, liquid level gauge and retractable grounding cable. Steel construction, rolls easily. Foot brake allows positive stopping action for sloped surfaces.

No. EX2903 features an air motor and pump with automatic shut-off dispensing nozzle and 8' hose.
