

Why choose Protectoseal?

Safety Without Compromise

ALMOST
100
YEARS IN BUSINESS

Headquarters in the United States,
with high-tech production facilities
in the United Kingdom and India.

The world's leading provider of vapor and flame solutions.

We continue to offer the industry's widest selection of Flame Arresters, Conservation Vents, Tank Blanketing Valves, and Ancillary Equipment.

Large quantities of stock available for immediate shipment.

Continued investment in our major Inventory Program means we can ship your units out to you faster than ever.

Production cycles up to 50% faster than the industry standard.

We continue to outpace the market and offer select models at significantly shorter lead times.

The Protectoseal Philosophy

Safety: We keep the environment safe while also defending your company's most prized assets - your employees and facilities.

Reliability: We strive to go above and beyond your expectations.

Integrity: Without ever trying to up-sell you, we provide you with the facts about what will and will not work for your process.

Cutting-edge laboratory equipment, state-of-the-art algorithms, and Computational Fluid Dynamics (CFD).

Global Sales Agents

You can reach one of our authorized **Sales Representatives** anywhere in the world for help.

Our team is always eager to lend a hand.

Our patented technologies allow for the highest flow rates and the lowest pressure drops in the industry.
