PROTECTOSEAL®

The safety experts

Protectoseal has developed an innovative range of products designed specifically for use in wineries, with minimal product losses, best-in-class pressure relief and enhanced explosion protection performance.

The possibility of VOC ignition leading to a potentially catastrophic explosion is an ever-present risk in the winery industry. Operational needs necessitate complete dependability, minimal maintenance and cost-effective solutions.

See below for a wide range of products with the following approvals; FM, UL, USCG & ATEX.

1

In-Line Detonation Arresters
UCA

2

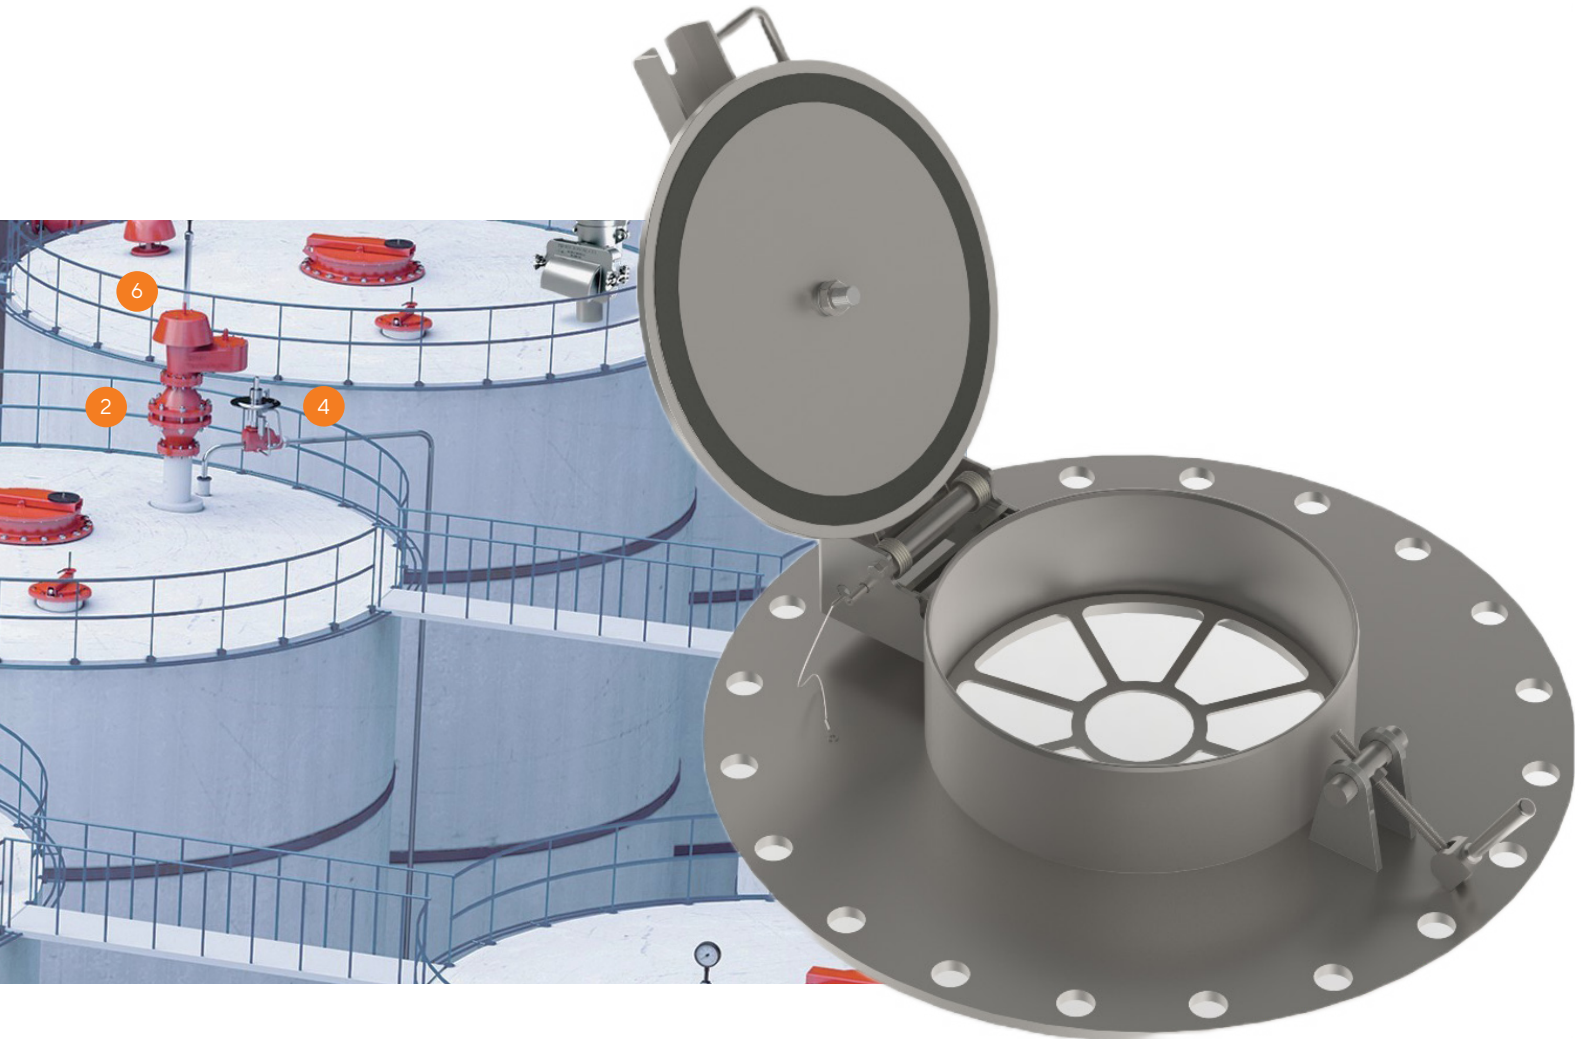

In-Line Deflagration Arresters
LCA

3

Conservation Vent & Flame Arrester
830

Lift Assist Sampling Hatch Series 7500

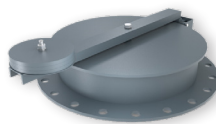

4

Tank Blanketing Valves
20

5

Emergency Relief Manhole Vent
51700

6

Pressure & Vacuum Conservation Vent
8540H/8540G
